ESD

who we are

Alsico contamination control is a global supplier of garments for cleanrooms, clean areas, ESD environments and operating theatres.

We develop, produce and supply high quality garments to rental companies, end-users and specialised distributors.

We are part of the alsico group, a specialist in workwear with more than 80 years of experience. Alsico contamination control is a business unit of the alsico group. This enables us to concentrate 100% on our core business: protecting your environment.

Our performance protects yours.

As a three decade long market leader in the cleanroom industry, we at alsico noticed that there is a strong demand for a clear and complete range of static control cleanroom garments.

Thanks to our close collaboration with end customers and rental companies we were able to create our own complete collection: be.static.

In our be.static collection you will find the required garments for working in a static controlled cleanroom environment.

our complete collection

- / complete range for micro electronics
- / according to IEST-RP-CC003.5 recommended practice
- / applicable to ISO 4 classification according to the cleanroom standard ISO 14644-1
- / according to ESD-standard IEC 61340-4-9
- / conductive fabrics
- / high protection from particles and electrostatic charges
- / high comfort
- / custom made garments available upon request, lead time 8 weeks

static control cleanroom garments

for micro electronics- and battery industry
