TEXTILE GLOVES

CCI noTraceX
CCI Gloves

Special portfolio

KNITTED PROTECTIVE GLOVES

In contrast to the standard PU (polyurethane) coating used on palms and fingertips, CCI has developed a nitrile coating that is suitable for cleanrooms. This coating is significantly more resistant to mechanical stress, resulting in excellent abrasion resistance. Nitrile is also resistant to oils, greases, fuels and some chemicals.

CCI gloves offer safety through optimised grip and are extremely comfortable to wear. Due to its higher resistance, a nitrile coating lasts longer, which makes the gloves more cost-effective in the long term.

Models from the following series are available:

CCI noTraceX (special version)

CCI Glove (standard version)

Special version

CCI noTraceX

Special gloves for demanding applications in cleanrooms

// High mechanical strength

high abrasion resistance, low particle release

// Exceptionally high surface cleanliness

thanks to a special multi-stage cleaning process

// Comfortable wearing comfort

extremely breathable, optimal fit

// Excellent grip

very high tactility and sensitivity

// Fingerprint-free

extensive avoidance of fingerprints

// Seamless

// Overlock cuffs with colour coding

for size identification

// Silicone-free

prevents the transfer of contaminants

// Free of ions (Fe, Cu, Ni and Si)

for increased cleanliness requirements

// Free of DMFa (Dimethylformamide)

// Coating is suitable for touchscreens

// Moisture barrier bags (MBB)

the aluminium-coated film packaging reliably

protects the gloves from moisture and

contamination – ideal for cleanroom applications

// Developed for high-sensitivity manufacturing areas

semiconductor and microelectronics industry,

aerospace, automotive industry and many other

4122X

CCI noTraceX – antistatic version

white nitrile-coated palm

knitted, 13 gauge, polyamide stretch
with carbon fibres

// Size: XS – XXL

// Packed in pairs (MBB)

// 20 packs x 10 pairs

// 200 pairs/box

300012

4121X

CCI noTraceX

white nitrile-coated palm

knitted, 13 gauge, 100% polyamide stretch

// Size: XS – XXL

// Packed in pairs (MBB)

// 20 packs x 10 pairs

// 200 pairs/box

Standard version

CCI GLOVES

Protective gloves for typical cleanroom applications

- // High mechanical strength
high abrasion resistance, low particle emission
- // Comfortable wearing comfort
extremely breathable, optimal fit
- // Excellent grip
very high tactility and sensitivity
- // Coating is suitable for touchscreens

- // Seamless
- // Overlock cuffs with colour coding
for size identification
- // Sufficient surface cleanliness
- // Silicone-free
prevents the transfer of contaminants
- // Free from DMFa (Dimethylformamide)

Gloves with coated palms

- // Excellent grip and slip resistance
when holding tools or other parts
- // Secure grip
even on smooth, oily or wet surfaces

- // Hand protection
against abrasion, dirt or mechanical stress
- // Typical areas of application
assembly, logistics, machine operation and more

300001

CCI Glove

knitted, 13 gauge, 100% polyamide stretch, white nitrile-coated palm

- // Size: XS – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs / box

300003

CCI Glove – antistatic version

knitted, 13 gauge, polyamide stretch with carbon fibres, white nitrile-coated palm

- // Size: XS – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs / box

Gloves with coated fingertips

- // Precise gripping and assembly
- // Fine, clean and contamination-free working with a good grip

- // Typical areas of application
electronics manufacturing, laboratories,
medical technology, automotive industry,
cleanroom industry and more

CCI Glove

knitted, 13 gauge, 100% polyamide stretch,
white **nitrile-coated fingertips**

- // Size: XS – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs/box

CCI Glove – antistatic version

knitted, 13 gauge, polyamide stretch with carbon fibres,
white **nitrile-coated fingertips**

- // Size: XS – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs/box

Standard version

CCI GLOVES

Protective gloves for typical
cleanroom applications

6

Gloves with coated palms

Cut-resistant gloves, class F

- // High abrasion resistance
- // Very comfortable wearing comfort
- // Good flexibility

300007

EN 388:2016
+A1:2018

CCI Glove

Cut-resistance class F, knitted, 13 gauge,
HPPE polyethylene, polyamide, glass fibre, spandex,
white **nitrile-coated palm**

- // Size: S – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs / box

Glove TactileTOUCH

- // Extremely thin palm coating
- // Highly sensitive touch, excellent grip
- // Excellent breathability, maximum elasticity

300015

EN 388:2016
+A1:2018

Glove TactileTOUCH

knitted, 18 gauge, nylon and spandex,
blue **nitrile foam-coated palm**

- // Size: XS – XXL
- // 12 OPP bags x 12 pairs
- // 144 pairs / box

Uncoated gloves

// Simple mechanical protection
against dirt and abrasion

// Hygiene and contamination protection
against fingerprints, skin oils or dirt

// Comfortable and breathable

for long periods of wearing that require fine motor skills

// Hand protection

during light contact with cold or heat

// For use as an underglove

300008

CCI Glove

knitted, 13 gauge, 100% polyamide stretch,
uncoated

- // Size: XS – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs / box

300009

CCI Glove

knitted, 13 gauge, 100% polyamide stretch,
uncoated, half-finger

- // Size: XS – XXL
- // Packed in pairs (OPP bags)
- // 24 packs x 10 pairs
- // 240 pairs / box
